

CHECKLIST FOR 5-DAY-OR-LESS PROGRAM

For pets residing in Hawaii, please use: "Checklist Only for Dogs and Cats Located in Hawaii That Are Departing and Returning for the 5-day-or-less Program" instead.

All steps need to be completed to qualify for this program. If you are unable to meet the following requirements, your pet will undergo quarantine for up to 120 days.

Step 1 RABIES VACCINATIONS

- The pet must have been vaccinated at least two times for rabies in its lifetime.
- These rabies vaccines were administered **more than 30 days** apart.
- The most recent rabies vaccination was done:
 - Not more than the vaccine's licensed booster interval listed on the manufacturer's label; and
 - Not less than 90 days before the pet's date of arrival in Hawaii.

NOTE! Two rabies vaccinations are required. The pet's most recent rabies vaccination must not be expired when your pet arrives in Hawaii. Following the most recent rabies vaccination, animals must wait at least **90** days before arriving in Hawaii. **If arrival occurs before 90 days has elapsed from the most recent rabies vaccination, the animal is subject to quarantine until 90 days are completed.**

- The date and type of vaccine must be indicated on the pet's vaccination and health certificates.
Most Recent Vaccination Date: _____ Type of vaccine : 1-year 3-year 4-year
Previous Vaccination Date: _____

Step 2 MICROCHIP (Microchip number: _____)

- The dog or cat has an electronic microchip implanted (Required before an OIE-FAVN rabies blood test is performed).
- The microchip has recently been scanned by a veterinarian to verify that it is working and that the microchip number is correct. NOTE! Make sure the microchip is working!
- If any pet cannot be identified by scanning the microchip, it will not qualify for either direct airport release or the 5-day-or-less quarantine and will be assigned to 120 days quarantine.

Step 3 OIE-FAVN RABIES BLOOD TEST

Date sample received by Kansas State University (KSU) or the DOD lab: _____
Planned Arrival Date (must be 120 days after KSU DOD received sample) _____
(WARNING! A passing test is only valid for 36 months)

- The day after KSU or DOD received your pet's blood sample must **not be more than 36 months and not less than 120 days** before the date of arrival in Hawaii.

Note! Be aware that use of an intermediate lab (Antech, Idexx, etc.) may delay the date KSU and DOD receives your pet's sample.

- The result of the pet's blood test was greater than or equal to 0.5 IU/ml.
- The test was done at an approved lab (Kansas State University or the DOD Food Analysis and Diagnostic Laboratory in Texas)
- Retain a copy of this successful blood test result showing the pet's microchip number from the veterinarian for your records. Do not contact the laboratory directly. Make sure your veterinarian lists: "HAWAII" as the destination on the blood test submission form. KSU and DOD will then automatically send your pet's results to Hawaii.

Step 4 WAITING PERIOD – Early Arrival Means Disqualification From 5-Day or Less Quarantine or Airport Release!

5-D-O-L
Pg 2 of 4
Rev. 10/09

WARNING! Arriving anytime before the 120-day waiting period has elapsed will result in disqualification of a pet from the 5-day-or-less quarantine program and direct airport release
IMPORTANT! : The waiting period begins the day after KSU or DOD received the blood sample for the OIE-FAVN test. The test must also have a result ≥ 0.5 IU/ml. All pets arriving before the eligible date of entry will be quarantined and assessed \$14.30 each day in addition to applicable program fees. There are no exceptions.

Following a successful OIE-FAVN test result, *animals must wait at least 120 days* before arriving in Hawaii. If arrival occurs before 120 days has elapsed, the animal is subject to quarantine until 120 days are completed.

- Your pet must complete the 120-day waiting period before arriving in Hawaii or your pet will not qualify for either direct airport release or the 5-day-or-less quarantine program.

Step 5 DOCUMENTS

- Original ink signature or carbon copy rabies vaccination certificates for the **two** most recent rabies vaccinations the pet received are required. (Photocopies and computer generated certificates are not accepted.)
- The vaccination certificates must have the vaccine name, lot or serial number, booster interval, vaccination date and vaccine lot expiration date listed.
- An original health certificate in English, done within 14 days of arrival in Hawaii including rabies vaccine name, lot or serial number, booster interval, vaccination date and expiration date is required.
- A veterinarian must treat the pet for ticks with a product containing Fipronil or an equivalent long-acting product labeled to kill ticks (Revolution[®] is not acceptable) within 14 days of arrival and the product name and date of treatment must be recorded on the pet's health certificate.
- If you are applying for re-entry under the same OIE-FAVN blood test and rabies vaccinations that have not expired yet, you must have a copy of the Airport Release card given to you when your pet was released at the airport on a previous arrival in Hawaii.

Step 6 SUBMISSION OF DOCUMENTS

Send documents and payment to: Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701.

Note! Do not send each document in separately. Send all documents (Dog & Cat Import Form, two rabies vaccination certificates, payment) in as a set **more than 10 days before arrival. Faxes and photocopies are not accepted!**

- Be sure to allow adequate time for delivery to ensure your documents are received by the Rabies Quarantine Branch **more than 10 days before your pet arrives** in Hawaii for direct release. (Failure to send documents as instructed can disqualify a pet from airport release.)
- If you do not send the original health certificate to the Rabies Quarantine Branch in advance of your pet's arrival when you submit your other documents, you must provide the health certificate upon arrival at the Airport Animal Quarantine Holding Facility. Failure to bring the original health certificate (photocopy not acceptable), will prevent your pet from being released.

- Required Documentation:
(The Rabies Quarantine Branch must receive the following more than 10 days before your pet arrives in Hawaii!)
 - Completed Dog & Cat Import Form AQS-278 (must be notarized).
 - 2 original rabies vaccination certificates with actual veterinarian signature in ink.
 - Payment of fees (\$165 per pet in advance for direct airport release or \$224 for 5-day-or-less program) by cashier's check or money order (no personal checks are accepted). Included your pet's microchip number with the payment to ensure proper credit. Payable to: **Department of Agriculture**.
 - A copy of the Airport Release card given to you when your pet was released at the airport on a previous arrival in Hawaii (if you are applying as a re-entry under the same OIE-FAVN blood test and rabies vaccinations.) Be sure the test and rabies vaccination are still valid and not expired!
- Send your documents by mail with return receipt to verify delivery, or by an overnight carrier that provides tracking of your documents.
- Payment may be made at the airport however, processing will be delayed. Payment by cashier's check or money order is recommended. VISA, MasterCard will also be accepted upon arrival, but will delay processing time. Payment must be made in full before your pet will be released. Payment in excess of fees will receive refunds through the mail in 6 to 8 weeks after a request for refund is made.
- Retain copies of necessary qualification documents (health certificate, rabies vaccination records, and blood test result) for your files and to accompany your pet as a backup.

Step 7 OTHER

- It is recommended that you check your pet's blood test results for the 5-day-or-less program at the Hawaii Department of Agriculture web site: <http://hawaii.gov/ai/aqs/info>

Direct Release at Airport

- Understand that Direct Airport Release is only done at the **Honolulu International Airport**.
- You must arrange for your pet to arrive at the Airport Animal Quarantine Holding Facility at the Honolulu International Airport during **normal inspection hours between 8:00 AM to 5:00 PM**. It may take up to one hour for the airlines to transport a pet to the Airport Animal Quarantine Holding Facility [Phone: (808) 837-8092] and animals not arriving at the facility during normal inspection hours will not be released at the airport.
Warning!: Inspection hours are subject to change at any time without notice.
- Animals on international flights will need to clear U.S. Customs **before** they may be released from the Airport Animal Quarantine Holding Facility. Please check with your airlines regarding U.S. Customs hours of operation to assure they will be open to process your pet for release.
- If your pet is not picked up that day, it will be transferred to the Animal Quarantine Station the following morning and will be entered into the 5-day-or-less program. Fees for the 5-day-or-less program are \$224 per pet.
- Your pet will not qualify for direct airport release if ticks or other parasites are found at the time of arrival.
- Direct release at Honolulu International Airport will not be possible when prohibited by Federal airport security advisories. Under those circumstances pets will be released the following day at the Animal Quarantine Station 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:
 - Monday through Friday:** 9:00 AM to 11:00 AM & 1:00 PM to 4:30PM
 - Saturday, Sunday, State Holidays:** 8:00 AM to 10:00 AM & 12:00 PM to 3:30PMWarning! Hours of operation listed in this publication are subject to change and revision without prior notice.

- ❑ An animal may only be released to the consignee identified on the shipmaster's declaration or owners listed on a notarized Dog and Cat Import Form (AQS 278.) If you are not traveling with your pet, you must make arrangements with the airlines to consign your pet to the individual who will pick up your pet.
- ❑ It is your responsibility to arrange all transportation for your pet once it is released from the Airport Animal Quarantine Holding Facility in Honolulu.

NOTE! Pet owners should bring a baggage cart or other means to transport their crated pet from the Airport Animal Quarantine Holding Facility to the Inter-island Terminal if traveling on to an outer island after release of their pet. There are no carts or porters at the Airport Animal Quarantine Holding Facility.

- ❑ Due to Federal security regulations at the Honolulu International Airport, all pets that qualify for direct airport release must be secured in their flight carriers when picked up from the Airport Animal Quarantine Holding Facility until the animal is out of the Airport. Do not remove your pet from its transport carrier on airport property!
- ❑ You must notify the Animal Quarantine Station prior to arrival, follow the same procedures, and meet all the requirements each time your pet enters or returns to Hawaii.
- ❑ You will pay a fee of \$165 per pet for direct airport release or \$224 per pet for the 5-day-or-less program each time your pet enters or returns to Hawaii unless it qualifies for subsequent entry fees outlined in: "Re-Entry Fee Requirements".
- ❑ Unless prior arrangements are made with the Airport Animal Quarantine Holding Facility (AAQHF), 5-Day-or-Less - Pets arriving between 5:00 PM and 8:00 AM will be transferred to the Animal Quarantine Station and entered under the 5-day-or-less program. The first day of quarantine shall be the day following the date of animal arrival into the State. In this situation, after all necessary documents are received and verified, pets may be picked up at the Animal Quarantine Station, 99-951 Halawa Valley Street, Aiea, Hawaii 96701, phone: (808) 483-7151, during normal office hours:

Monday through Friday: 9:00 AM to 11:00 AM & 1:00 PM to 4:30 PM
Saturday, Sunday, State Holidays: 8:00 AM to 10:00 AM & 12:00 PM to 3:30 PM
Warning! Hours of operation listed in this publication are subject to change and revision without prior notice.

- ❑ You will be assessed an additional \$17.80 each day your pet remains at the Animal Quarantine Station beyond its scheduled release date.
